

Linking Health and Mapping

John Spencer
MEASURE Evaluation
Pre-CODIST Workshop
April 27, 2009

MEASURE Evaluation is funded by the U.S. Agency for International Development (USAID) through Cooperative Agreement GHA-A-00-08-00003-00 and is implemented by the Carolina Population Center at the University of North Carolina at Chapel Hill, in partnership with Futures Group International, John Snow, Inc., Macro International Inc., Management Sciences for Health, and Tulane University. The views expressed in this presentation do not necessarily reflect the views of USAID or the United States government.

Group Work Instructions

- Purpose of Group Work:
 - 1) Identify resources within the country or region for GIS and mapping
 - 2) Identify data and technical capacity needs for Ministries of Health (MOH) and/or NACs
 - 3) Identify challenges and limitations that hinder making linkages with NMA and spatial data infrastructure efforts
 - 4) Identify opportunities for connections between the MOH/NACs and the National Mapping Agencies (NMA)

Data Infrastructure

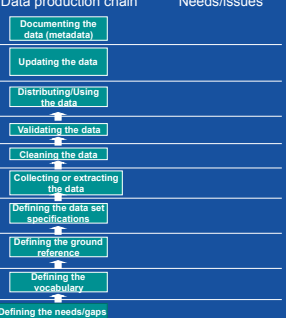

- Data has a journey

The slide features a blue background with a white title 'Data Infrastructure' and a bullet point 'Data has a journey'. Below the text, there is a graphic showing a globe on the left and a tall building on the right, connected by a green horizontal bar. At the bottom right, there are logos for USAID (From the American People) and MEASURE Evaluation.

Board

Capacity/mandate	Data production chain	Needs/issues
	Documenting the data (metadata)	
	Updating the data	
	Distributing/Using the data	
	Validating the data	
	Cleaning the data	
	Collecting or extracting the data	
	Defining the data set specifications	
	Defining the ground reference	
	Defining the vocabulary	
	Defining the needs/gaps	

The diagram shows a vertical flow of ten steps in the 'Data production chain' column, connected by double-headed arrows. The steps are: Documenting the data (metadata), Updating the data, Distributing/Using the data, Validating the data, Cleaning the data, Collecting or extracting the data, Defining the data set specifications, Defining the ground reference, Defining the vocabulary, and Defining the needs/gaps. The USAID and MEASURE Evaluation logos are at the bottom right.

Challenges

- What are the challenges that you face:
 - Using geographic data
 - Linkages across sectors
 - Ways to overcome challenges

The slide features a blue background with a white title 'Challenges' and a bullet point 'What are the challenges that you face:' followed by three sub-bullets: 'Using geographic data', 'Linkages across sectors', and 'Ways to overcome challenges'. At the bottom right, there are logos for USAID (From the American People) and MEASURE Evaluation.

Resources

- What mapping resources exist in country or region?

Group Work Details

- Group Work: 14:45 – 16:00
- Facilitator will lead group
 - Rapporteur will be Chosen
- During the break key findings will be aggregated
- Reported out

Group Details

- 9 Groups based on country
- If you are from a country outside of Africa and not assigned a group, pick a country to participate in.
