

Demand and Readiness Tool for Assessing Data Sources in Health Information Systems (HIS DART)

MODULE 11:

Collective Interventions

This questionnaire with its corresponding instructions is one of 12 HIS data source assessment modules. The questionnaire is designed to capture information that informs health authorities and other stakeholders about the alignment of the HIS data source with relevant standards. The full series of assessment modules is available at <https://www.measureevaluation.org/resources/tools/dart/>.

For more information, see the corresponding data source module in Health Information System Strengthening: Standards and Best Practices for Data Sources, available here: <https://www.measureevaluation.org/resources/publications/tr-17-225>.

Module 11 Questionnaire: Collective Interventions

No.	QUESTION	RESPONSE	SKIPS
1	Does [COUNTRY] monitor any information, education, and counseling (IEC) programs to enable individuals in the community to protect and improve their health and safety (HC.6.1)? For example, mass media campaigns to: - Reduce substance abuse and overconsumption of alcohol - Provide information on healthy behavior related to diet, exercise, and sedentary lifestyles - Promote self-protection to avoid injuries due to road accidents	YES NO	1 2 SKIP TO Q4
2	Name one IEC program that is currently monitored: _____		
3	For this IEC program, is information readily available on the: (a) Reference period for delivery or implementation (b) Geographical areas targeted (c) Populations targeted within the area (general population or specific age, sex, or other groups) (d) Entity responsible to deliver or implement the intervention	YES 1 1 1 1 NO 2 2 2 2	
4	Does [COUNTRY] monitor any immunization programs that help to prevent vaccine-preventable diseases (HC.6.2)? For example, vaccine campaigns or continuous immunization operations to reduce or eliminate diseases such as: -Diphtheria -Hepatitis -Herpes zoster -HPV -Influenza -Measles -Meningococcal infections -Mumps -Pertussis (whooping cough) -Pneumococcal infections -Polio -Rabies -Rubella -Tetanus -Varicella (chicken pox) -Yellow fever	YES NO	1 2 SKIP TO Q7
5	Name one immunization program that is currently monitored: _____		
6	For this immunization program, is information readily available on the: (a) Reference period for delivery or implementation (b) Geographical areas targeted (c) Populations targeted within the area (general population or specific age, sex, or other groups) (d) Entity responsible to deliver or implement the intervention	YES 1 1 1 1 NO 2 2 2 2	
7	Does [COUNTRY] monitor any early disease detection programs to detect communicable or non-communicable disease before a diagnosis made (HC.6.3)? For example, screening, diagnostic tests, or medical examinations for diseases such as: -Breast cancer -Cervical cancer -Colon rectal cancer -Diabetes -HIV/AIDS -Malaria -Tuberculosis -Prostate cancer	YES NO	1 2 SKIP TO Q10
8	Name one early disease detection program that is currently monitored: _____		
9	For this early disease detection program, is information readily available on the: (a) Reference period for delivery or implementation (b) Geographical areas targeted (c) Populations targeted within the area (general population or specific age, sex, or other groups) (d) Entity responsible to deliver or implement the intervention	YES 1 1 1 1 NO 2 2 2 2	
10	Does [COUNTRY] monitor any healthy condition monitoring programs (HC6.4)? For example: -Maternal and child health, prenatal, and postnatal medical care for the mother -Maternal and child health, baby healthcare, and child growth and development for the infant -Prevention of non-communicable disease, improvement of health status not directed specifically toward communicable disease -Occupational healthcare, surveillance of employee health -Occupational healthcare, routine medical check up	YES NO	1 2 SKIP TO Q13
11	Name one healthy condition monitoring program that is currently monitored: _____		
12	For this healthy condition monitoring program, is information readily available on the: (a) Reference period for delivery or implementation (b) Geographical areas targeted (c) Populations targeted within the area (general population or specific age, sex, or other groups) (d) Entity responsible to deliver or implement the intervention	YES 1 1 1 1 NO 2 2 2 2	

13	Does [COUNTRY] monitor any technical operations of epidemiological surveillance and risk and disease control programs (HC.6.5)? For example, to manage knowledge and resources with a preventive or control focus linked to HIV/AIDS, tuberculosis, cancer, or other program: - Program monitoring, design, and evaluation - Compulsory reporting of communicable diseases - Epidemiologic surveillance of trends and outbreaks - Investigation of health service delivery and responses to outbreaks? - Training and capacity building - Operations research - Data quality assessments	YES NO	1 2	SKIP TO Q16
14	Name one technical operation that is currently monitored: _____			
15	For this technical operation, is information readily available on the: (a) Reference period for delivery or implementation (b) Geographical areas targeted (c) Populations targeted within the area (general population or specific age, sex, or other groups) (d) Entity responsible to deliver or implement the intervention	YES 1 1 1 1	NO 2 2 2 2	
16	Does [COUNTRY] monitor any preparations for disaster and emergency response programs (HC.6.6)? For example, in the case of an emergency: - Preparations for the health infrastructure to acquire or expand resources very quickly - Preparations for changing the handling, referencing, and triaging of patients	YES NO	1 2	SKIP TO Q19
17	Name one technical operation that is currently monitored: _____			
18	For this technical operation, is information readily available on the: (a) Reference period for delivery or implementation (b) Geographical areas targeted (c) Populations targeted within the area (general population or specific age, sex, or other groups) (d) Entity responsible to deliver or implement the intervention	YES 1 1 1 1	NO 2 2 2 2	
19	Governance, and health system and financing administration services focus on the health system and are intended to benefit all health system users by increasing the effectiveness and efficiency of the health system. Does [COUNTRY] monitor any governance and health system administration activities that includes providing vision and direction, collecting and using intelligence, and exerting influence through regulation and other means (HC.7.1)? For example, planning, policy formulation, and information intelligence activities for the entire health system, such as: - Monitoring of health needs and healthcare interventions - Health accounting and specific resource monitoring and auditing - Health promotion partnerships, social participation, and empowerment - Research, development, and implementation of innovative interventions to set standards	YES NO	1 1	SKIP TO Q22
20	Name one governance or administration activity that is currently monitored: _____			
21	For this governance or administrative operation, is information readily available on the: (a) Reference period for delivery or implementation (b) Geographical areas targeted (c) Populations targeted within the area (general population or specific age, sex, or other groups) (d) Entity responsible to deliver or implement the intervention	YES 1 1 1 1	NO 2 2 2 2	
22	Does [COUNTRY] monitor any administration of health financing activity services related to managing the mobilization and collection of funds, pooling the funds, and using funds to purchase health services (HC.7.2)? For example: - Identification of members of a financing scheme (resource mobilization activity) - Members' enrollment (resource mobilization activity) - Billing and collecting of contributions (resource mobilization activity) - Risk equalization (pooling activity) - Selecting, negotiating, purchasing, and contracting with health providers (purchasing activity) - Claims processing, provider payments, and patient reimbursement (purchasing activity)	YES NO	1 2	SKIP TO END
23	Name one health financing activity that is currently monitored: _____			
24	For this health financing activity, is information readily available on the: (a) Reference period for delivery or implementation (b) Geographical areas targeted (c) Populations targeted within the area (general population or specific age, sex, or other groups) (d) Entity responsible to deliver or implement the intervention	YES 1 1 1 1	NO 2 2 2 2	
END
